I am a programmer with 10+ years of experience in developing and maintaining web applications. I'm proficient in Python. If you have something written in it, there is a good chance I'll be able to help you. Additionally, I have experience in training and integrating AI into the existing business logic.

EXPERIENCE

HIM Solutions Inc

Full Stack Engineer

Lviv, Remote

Apr 2015 – Present day

- Integrated AI model predictions into workflow, trained fine-tunes for solving specific tasks.
- Wrote two-dimensional regexp engine for parsing PDFs.
- Implemented and maintained scraper fleet on top of Celery queue.
- Invented a fake ORM for improving DB consistency for a lot of error-prone legacy code, without ever touching it.
- Migrated the whole codebase from Python2 to Python3.
- Implemented automated application deployment and service tasks first for VPS/VDS, later for AWS.
